

Syracuse University College of Law

Presents

The REARGUARD FAMILY of FUNDS™*

* The Rearguard Family of Funds is part of an educational exercise conducted by the students in Professor Christian Day's Business, Finance and Economics class. This is not an authentic fund; nothing herein should be construed as an offer to sell or buy securities.

The bloom is off the rose. Gone are the decades of boom that made child's play of the investment game. The stock markets are going sideways, yet The Rearguard Family of Funds, run by the students of Syracuse University College of Law, prospers. How do we do it? We buy low, sell high. We push the envelope. Utopia, where we are registered, has no income tax or commissions on transactions. Thomas More provides good government and our legal training ensures a civil society.

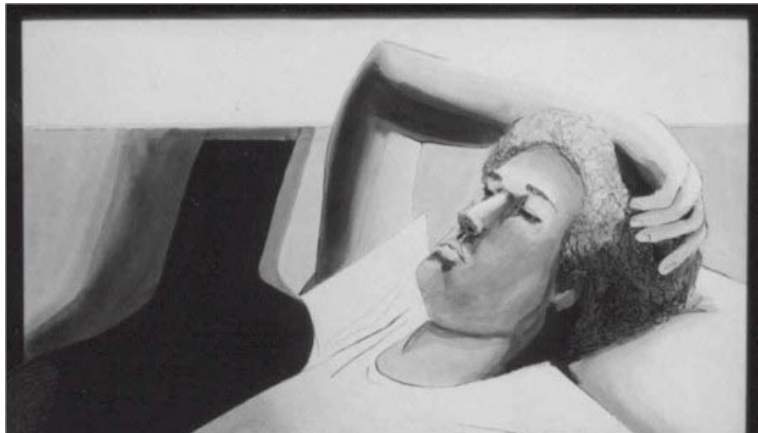

Rest assured, all of our funds are managed by aggressive, hungry law students. While we can't promise that you will earn the record returns we have in the Rearguard Family of Funds Stock Market Game™, we can promise that you will have fun if you take Business, Finance and Economics seriously.
